

<u>Samples</u>	<u>Gradient and intercept</u>
----------------	-------------------------------

1. Find the gradient and y -intercept of the line $11y - 5x + 7 = 4 + 5x + 10y$.
2. Find the gradient and y -intercept of the line $6x - 2 + 9y = 3y - 2x - 8$.
3. Find the gradient and y -intercept of the line $-3 + 2y = -2x + 6y + 2$.
