1. In interval form the answer is $(-\infty, -2.3)$ and on a real line the answer is:

-2.3

-5   -4   -3   -2   -1   0   1   2   3   4   5
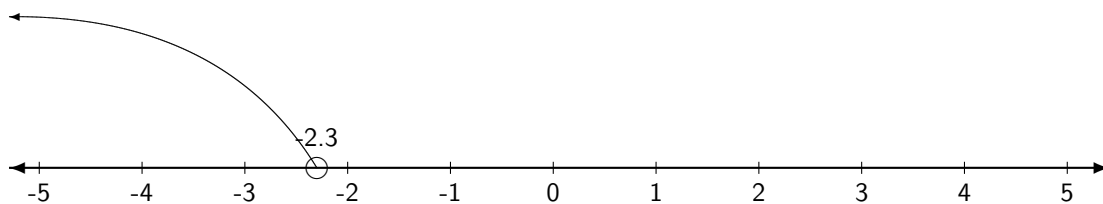

2. In interval form the answer is $(-7, 4)$ and on a real line the answer is:

-7   4

-50   -40   -30   -20   -10   0   10   20   30   40   50
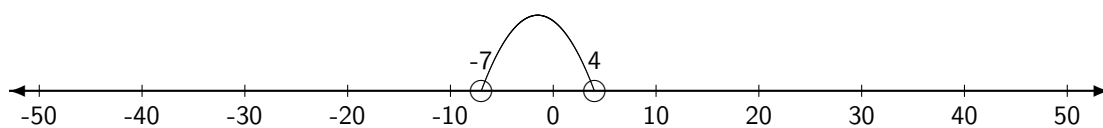

3. In interval form the answer is $(-\infty, 7]$ and on a real line the answer is:

-1   0   1   2   3   4   5   6   7   8   9
